4 REAL PROJECTS

1 COURSE TEST

OVERVIEW

Students learn how skills become services and services become professional opportunities — without assuming every teenager can independently use adult marketplaces. Real platforms are taught as case studies, with their actual age and account rules, never a workaround.

PORTFOLIO PROJECTS

- Professional service package
- Pricing worksheet
- Proposal + client/project brief
- Full simulated client project

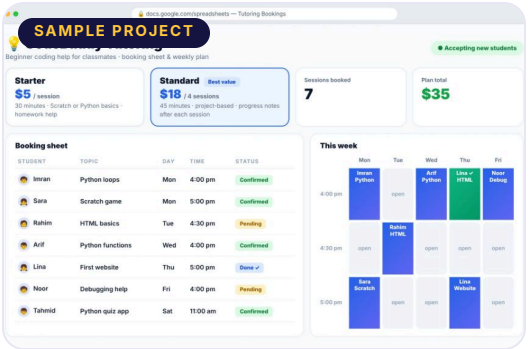

WHY IT MATTERS

Real opportunities require real professional skills — scoping, pricing, proposing, delivering. A complete simulated client project builds and proves every one of those skills, safely, before a student ever needs an adult marketplace account.

LESSON BREAKDOWN

1. How the freelance economy works
2. Turn a skill into a service
3. Build a service package
4. Pricing, scope and agreements
5. Finding your first opportunities
6. Marketplace models: what changes at different ages?

4 REAL PROJECTS

1 COURSE TEST

LinkedIn (16+) | Canva | Google Docs | Content Planning Tools

OVERVIEW

Students build reputation and communicate professionally using LinkedIn where they're age-eligible (16+, subject to local law), and an equally credible portfolio-first path where they're not — so every student leaves discoverable and prepared.

PORTFOLIO PROJECTS

- Professional profile / presence
- 5 pieces of professional content
- Networking plan
- 90-day growth plan

3. Showcase your work
4. Share what you know
5. Build a professional presence beyond LinkedIn
